

Consent Calendar for the Reference Committee on Health of the Public & Science

All page references herein are to the Delegates' Handbook unless otherwise indicated.

THIS REPORT IS POLICY AFTER BEING ACTED UPON BY THE CONGRESS OF DELGATES – OCTOBER 9, 2018

RECOMMENDATION: The Reference Committee on Health of the Public and Science recommends the following consent calendar for adoption:

- Item 1** – Adopt Resolution No. 401 “Institutional Racism in the Healthcare System”
- Item 2** – Adopt Substitute Resolution No. 402 “Medical Aid in Dying” in lieu of Resolution Nos. 402, 403, 404, and 405 **EXTRACTED**
- Item 3** – Refer to the Board of Directors Resolution No. 406 “Treating Opioid Use Disorder in Hospitals and Drug Treatment Facilities”
- Item 4** – Adopt Resolution No. 407 “Safe Injection Facilities”
- Item 5** – Refer to the Board of Directors Resolution No. 408 “Support Measures to Decrease Maternal Mortality in the United States” **EXTRACTED**
- Item 6** – Not Adopt Resolution No. 410 “National Immunization Registry” **EXTRACTED**
- Item 7** – Refer to the Board of Directors Resolution No. 411 “FDA and Low-Nicotine Products” **EXTRACTED**
- Item 8** – Adopt Substitute Resolution No. 412 “Non-Pharmacologic Interventions, Pain, and Opioids”
- Item 9** – Not Adopt Resolution No. 413 “Two-Percent Tax on Gun and Gun Ammunition Sales to Fund Mental Health Support Services and Education at Public Schools” **EXTRACTED**
- Item 10** – Reaffirm Resolution No. 414 “Preventing Gun Violence”

2018 Consent Calendar for Ref. Com. on Health of the Public/Science, cont'd

Item 11 – Reaffirm Resolution No. 415 “Reducing Gun Violence”

Item 12 – Substitute Adopt Resolution No. 417 “Pre-Exposure Prophylaxis (PrEP) Related Life and Disability Insurance Denials”

Item 13 – Not Adopt Resolution No. 419 “Elimination of Known and Probable Carcinogens from School Meals”

Item 14 – Refer to the Board of Directors Resolution No. 420 “Natural Disaster Contingency Plan”

Item 15 – Adopt revised of policy statement on “Adolescent Health Care, Confidentiality” (Board Report H, ONLY para. 20, pp. 242-243)

Item 16 – Adopt revised policy statement on “Athletic Performance Enhancing Drugs” (Board Report H, ONLY para. 21, pp. 243-244)

Item 17 – Adopt revised policy statement on “Backpack Safety in Children” (Board Report H, ONLY para. 22, p. 244)

Item 18 – Adopt revised policy statement on “Chelation Therapy” (Board Report H, ONLY para. 23, p. 244)

Item 19 – Adopt revised policy statement on “Climate Change and Air Pollution” to “Environmental Health and Climate Change” (Board Report H, ONLY para. 24, pp. 244-245)

Item 20 – Adopt revised policy statement on “Clinical Practice Guidelines” (Board Report H, ONLY para. 25, pp. 245-246)

Item 21 – Adopt revised policy statement on “Culturally Proficient Health Care” (Board Report H, ONLY para. 26, pp. 246-247)

Item 22 – Adopt new policy statement on “Discipline in Schools” (Board Report H, ONLY para. 28, p. 247)

Item 23 – Adopt revised policy statement on “Don’t Text and Drive Initiative” to “Distracted Driving” (Board Report H, ONLY para. 29, pp. 247-248)

2018 Consent Calendar for Ref. Com. on Health of the Public/Science, cont'd

76 **Item 24** – Adopt revised policy statement on “Drug Testing and Selection” to
77 “Medication, Device, and Biologic Agents Drug Testing and Selection” (Board
78 Report H, ONLY para. 30, p. 248)

79
80 **Item 25** – Adopt new policy statement on “Genital Surgeries in Intersex Children”
81 (Board Report H, ONLY para. 32, pp. 248-249)

82
83 **Item 26** – Adopt revised policy statement on “Hearing Loss, Deafness, and the
84 Hard of Hearing” (Board Report H, ONLY para. 33, p. 249)

85
86 **Item 27** – Adopt revised policy statement on “Homelessness” (Board Report H,
87 ONLY para. 34, p. 250)

88
89 **Item 28** – Adopt new policy statement on “Implicit Bias” (Board Report H, ONLY
90 para. 36, p. 251)

91
92 **Item 29** – Adopt revised policy statement on “Linguistically Appropriate Health
93 Care” (Board Report H, ONLY para. 37, p. 251)

94
95 **Item 30** – Adopt new policy statement on “Maximizing Representation of Racial and
96 Ethnic Subpopulations in Data” (Board Report H, ONLY para. 39, pp. 251-252)

97
98 **Item 31** – Adopt revised position paper on “Mental Health Care Services by Family
99 Physicians” (Board Report H, ONLY para. 40, p. 252 and Appendix B, pp. 288-295)

100
101 **Item 32** – Adopt new policy statement on “Oral Health” (Board Report H, ONLY
102 para. 42, pp. 252-253)

103
104 **Item 33** – Adopt new policy statement on “Paid Sick Leave” (Board Report H,
105 ONLY para. 44, p. 253)

106
107 **Item 34** – Adopt revised policy statement on “Physical Activity in Children” (Board
108 Report H, ONLY para. 45, pp. 253-254)

109 **Item 35** – Adopt new position paper on “Prevention of Gun Violence” (Board Report
110 H, ONLY para. 48 p. 254 and Appendix C, pp. 296-305)

111
112 **Item 36** – Adopt revised and combined policy statements on “Unsupported
113 Screening and Diagnosis Testing” and “Screening” (Board Report H, ONLY para.
114 49, pp. 254-255)

115

2018 Consent Calendar for Ref. Com. on Health of the Public/Science, cont'd

116 **Item 37** – Adopt new policy statement on “Separation of Families” (Board Report H,
117 ONLY para. 51, p. 255)

118
119 **Item 38** – Adopt new policy statement on “Solitary Confinement of Youth” (Board
120 Report H, ONLY para. 53, p. 256)

121
122 **Information Items for Filing:**

- 123
124 • Board Report H, AAFP Policy Statements, ONLY, paras. 27, 31, 35, 38, 41,
125 43, 46, 47, 50, and 52. (pp. 233-338)

Report of the Reference Committee on Health of the Public/Science

All page references herein are to the Delegates' Handbook unless otherwise indicated.

**THIS REPORT IS POLICY AFTER BEING ACTED UPON
BY THE CONGRESS OF DELGATES – OCTOBER 9, 2018**

Mr. Speaker, the Reference Committee on Health of the Public and Science has considered each of the items referred to it and submits the following report.

ITEM 1 – INSTITUTIONAL RACISM IN THE HEALTHCARE SYSTEM

Resolution No. 401 from the New York State chapter entitled, “Institutional Racism in the Healthcare System,” the resolved portions are printed below:

RESOLVED, That the American Academy of Family Physicians (AAFP) adopt a policy opposing segregation of patient care within the health care system and within health care institutions by race, insurance status, or other demographics, and be it further

RESOLVED, That the American Academy of Family Physicians Center for Diversity and Health Equity develop materials and provide education to increase awareness of how racism is manifested through institutional policies and how segregated care within the health care system is a cause of racial disparities in health outcomes.

All testimony was in support of the resolution. Those testifying pointed out that the U.S. health system is racially segregated, with insurance coverage and socio-economic status as proxy. While the AAFP has policy opposing discrimination, segregation is distinct from discrimination. Testimony asked for the AAFP to raise awareness about and develop policies to fight segregation in our health system. The reference committee agreed that segregation should be specifically addressed by AAFP policy and that the resolution aligns with the ongoing work of the Center for Diversity and Health Equity.

34 **RECOMMENDATION:** The reference committee recommends that Resolution No.
35 401 be adopted.

36
37 **ITEM 2 – MEDICAL AID IN DYING**

38
39 Resolution No. 402 from the New York State chapter entitled, “Medical Aid in Dying,”
40 the resolved portions are printed below:

41
42 RESOLVED, That the American Academy of Family Physicians (AAFP) affirm
43 that the use of medical aid in dying is an ethical, personal, end-of-life decision
44 when the patient is terminally ill, is suffering and capable of making an
45 informed decision to end his/her suffering through medical aid in dying and
46 that such decision should be made in the context of the doctor-patient
47 relationship, and be it further

48
49 RESOLVED, That the American Academy of Family Physicians is neutral
50 regarding whether individual states should permit medical aid in dying, and be
51 it further

52
53 RESOLVED, That the American Academy of Family Physicians reject use of
54 the term “assisted suicide” when describing care to assist a patient who has
55 made the decision to end his/her suffering through medical aid in dying and,
56 instead, shall describe such situations as “medical aid in dying,” and be it
57 further

58
59 RESOLVED, That the American Academy of Family Physicians maintain a
60 neutral position on medical aid in dying regardless of any position on the
61 matter of any other medical organization, and be it further

62
63 RESOLVED, That the American Academy of Family Physicians support state
64 and federal laws which protect physicians from criminal prosecution and civil
65 liability who assist terminally ill patients in ending their suffering pursuant to
66 state or federal laws which permit medical aid in dying.

67
68 Resolution No. 403 from the California chapter entitled “Medical Aid-in-Dying is an
69 Ethical End-of-Life Option,” the resolved portions are printed below:

2018 Report of the Reference Committee on Health of the Public and Science, cont'd

70 RESOLVED, That the American Academy of Family Physicians acknowledge
71 that use of medical aid-in-dying is an ethical personal end-of-life decision that
72 should be made in the context of the doctor-patient relationship, and be it
73 further

74
75 RESOLVED, That the American Academy of Family Physicians seek to
76 modify the current American Medical Association (AMA) policy on end-of-life
77 care with language that recognizes medical aid-in-dying as an ethical end-of-
78 life option when practiced where authorized and according to prescribed law.

79
80 Resolution No. 404 from the Washington and New Mexico chapters entitled
81 “Adopting an Independent AAFP Policy on Medical Aid in Dying,” the resolved
82 portions are printed below:

83
84 RESOLVED, That the American Academy of Family Physicians adopt a
85 position of engaged neutrality toward medical aid in dying, which is the
86 process whereby terminally ill patients of sound mind ask for and receive
87 prescription medication they may self-administer to hasten death as this
88 position would be independent of the American Medical Association’s Code
89 of Ethics, which continues to strongly oppose legalization of medical aid in
90 dying, and be it further

91
92 RESOLVED, That the American Academy of Family Physicians use a more
93 contemporary term such as medical aid in dying or physician aid in dying
94 within its formal statements or documents on the topic and no longer use the
95 term “assisted suicide,” and be it further

96
97 RESOLVED, That the American Academy of Family Physicians direct its
98 delegates to the American Medical Association’s (AMA) house of delegates
99 to advocate that the AMA adopt a position of engaged neutrality regarding
100 medical aid in dying, and be it further

101
102 RESOLVED, That the American Academy of Family Physicians direct its
103 delegates to the American Medical Association’s (AMA) house of delegates
104 to advocate that the AMA discontinue use of the term “assisted suicide” to
105 describe medical aid in dying and instead adopt a more contemporary term
106 such as medical aid in dying or physician aid in dying.

2018 Report of the Reference Committee on Health of the Public and Science, cont'd

107 Resolution No. 405 from the California chapter entitled “Reject ‘Assisted Suicide’
108 Terminology in Aid-in-Dying,” the resolved portions are printed below:

109
110 RESOLVED, That the American Academy of Family Physicians reject the
111 term “assisted suicide” to describe the process whereby terminally ill patients
112 of sound mind ask for and receive prescription medication they may self-
113 administer to hasten death should their suffering become unbearable, and be
114 it further

115
116 RESOLVED, That the American Academy of Family Physicians urge the
117 American Medical Association (AMA) and its CEJA to reject use of the term
118 “assisted suicide” when referring to the practice of medical aid-in-dying.

119
120 Those providing testimony highlighted similar issues which threaded throughout the
121 discussion of the four resolutions. While the testimony was mixed regarding specific
122 terminology, there was a significant amount of testimony in support of the spirit of
123 the resolutions. The majority of testimony was in support of medical-aid-dying as
124 the preferred terminology in the context of the physician/patient relationship.

125
126 Those that testified in opposition to the resolutions focused on the use of the term
127 “ethical” as it may be subjective and implies that a physician, who does not support
128 medical aid-in-dying, may be unethical. There was also concern that having a
129 stance in support of medical-aid-in-dying may imply that all physicians should
130 provide this service.

131
132 Overall, the testimony provided in the hearing supported development of an AAFP
133 position of engaged neutrality toward medical-aid-in-dying as a personal decision
134 made by the patient in the context of the physician-patient relationship. Testimony
135 included personal stories of experiences with family members or patients,
136 highlighting the importance and value of giving those with terminal illnesses control
137 over their death. While it is a polarizing topic, with a variety of opinions, a neutral
138 position better represents the views of the those that testified. For many members,
139 medical-aid-in-dying is part of their practice and is legal in several states. By
140 supporting the AMA’s opposition to medical-aid-in-dying, some members feel the
141 AAFP is telling them that they are unethical. Several members testified that they
142 were personally opposed to medical-aid-in-dying but were supportive of the AAFP
143 taking a neutral position, recognizing that several of their colleagues and patients

2018 Report of the Reference Committee on Health of the Public and Science, cont'd

144 had differing perspectives. Some testimony expressed concern about the
145 possible criminal prosecution and civil liability of those physicians who assist
146 patients in ending their suffering; however, AAFP currently has policy which
147 opposes the criminalization of medical care.

148
149 The reference committee discussed all of the resolutions and testimony. Based on
150 the testimony, it was determined that a substitute resolution that captures the spirit
151 of all the aforementioned resolutions may provide an efficient vehicle to facilitate
152 implementation.

153
154 **RECOMMENDATION:** The reference committee recommends that Substitute
155 Resolution No. 402 be adopted in lieu of Resolution No. 402 “Medical Aid in Dying”,
156 Resolution No. 403 “Medical Aid in Dying is an Ethical End-of-Life Option”,
157 Resolution No. 404 “Adopting an Independent AAFP Policy on Medical Aid in Dying,
158 and Resolution No. 405 “Reject “Assisted Suicide” Terminology in Aid-in Dying” as
159 printed below:

160
161 RESOLVED, That the American Academy of Family Physicians adopt a
162 position of engaged neutrality toward medical-aid-in-dying as a personal end-
163 of-life decision in the context of the physician-patient relationship, and be it
164 further

165
166 RESOLVED, That the American Academy of Family Physicians [reject the](#)
167 ~~refrain from~~ use of the phrase “assisted suicide” or “physician-assisted-
168 suicide” in formal statements or documents and direct the AAFP’s American
169 Medical Association (AMA) delegation to promote the same in the AMA House
170 of Delegates. **ADOPTED AS AMENDED**

171

172 **ITEM 3 – TREATING OPIOID USE DISORDER IN HOSPITALS AND DRUG**
173 **TREATMENT FACILITIES**

174
175 Resolution No. 406 from the Washington chapter entitled “Treating Opioid Use
176 Disorder in Hospitals and Drug Treatment Facilities,” the resolved portions are
177 printed below:

178
179 RESOLVED, That the American Academy of Family Physicians endorse a
180 position that hospitals should treat opioid use disorder as a chronic disease,
181 including identifying patients with this condition; providing multiple evidence-
182 based treatment options in the inpatient, obstetric, peri-operative, and
183 emergency department settings; establishing appropriate discharge plans;
184 and participating in community-wide systems of care for patients affected by
185 this chronic disease, and be it further

186
187 RESOLVED, That the American Academy of Family Physicians advocate for
188 legislation that eliminates barriers to, increases funding for, and requires
189 access to opioid agonist or partial agonist therapy at all state-certified drug
190 treatment facilities and hospitals, and be it further

191
192 RESOLVED, That the American Academy of Family Physicians collaborate
193 with relevant organizations to encourage hospitals in the United States to treat
194 opioid use disorder as a chronic disease, including evidence-based inpatient,
195 obstetric, peri-operative and emergency department settings; establishing
196 appropriate discharge plans; and participating in the development of
197 community-wide systems of care for patients affected by this chronic disease.

198
199 The reference committee heard testimony in support of the resolution asking the
200 AAFP to advocate and encourage hospitals and drug treatment facilities to consider
201 opioid use disorder as a chronic disease and provide evidence-based treatment and
202 establish coordinated care plans to facilitate discharge and follow up at an
203 outpatient setting. Those testifying in support pointed out that there is a gap in
204 resources for inpatient care in current AAFP policies and the issues impacting
205 continuity of care for patients seeking treatment for opioid use disorder through
206 mandated withdrawal and coordinated resources after discharge. There were some

2018 Report of the Reference Committee on Health of the Public and Science, cont'd

207 concerns highlighting the potential issues of access to care and impact on Critical
208 Access Hospitals and other rural facilities.

209
210 The reference committee discussed the need for resources to provide coordinated
211 care for patients who have an opioid use disorder but agreed that there may be
212 issues at the state level and with coverage by insurers. Additionally, the committee
213 discussed the need for more investigation into current policies from other
214 organizations, such as the American Hospital Association, the American Medical
215 Association, and the Substance Abuse and Mental Health Services Administration
216 to determine the best avenues for collaboration. Based on these concerns, the
217 committee agreed that the resolution should be referred to the Board of Directors.

218
219 **RECOMMENDATION:** The reference committee recommends that Resolution No.
220 406 be referred to the Board of Directors.

221 222 **ITEM 4 – SAFE INJECTION FACILITIES**

223
224 Resolution No. 407 from the Massachusetts chapter entitled “Safe Injection
225 Facilities,” the resolved portions are printed below:

226
227 RESOLVED, That the American Academy of Family Physicians support
228 efforts to establish, and study the outcomes, of pilot safe injection facilities in
229 the United States, and be it further

230
231 RESOLVED, That the American Academy of Family Physicians call for
232 leadership of pilot safe injection facilities (SIF) programs by state or federal
233 authorities to examine the remediation of obstacles to a pilot such as, but not
234 limited to, the legal protection of medical personnel being in the presence of
235 illicit substances, protection of licensure of medical personnel working at a
236 SIF, and the provision of medical liability coverage to such personnel.

237
238 There was significant testimony in support of the resolution. Those testifying shared
239 evidence from other countries that have implemented safe injection facilities.
240 Evidence suggests that safe injection facilities (SIFs) can reduce the overdose
241 death rate, reduce infection with HIV and hepatitis C, decrease the crime rate in the
242 surrounding community, reduce harm from publicly discarded needles and provide

243 access to treatment. SIFs do not increase the rates of initiation of intravenous drugs.
244 It was pointed out that while some may be uncomfortable enabling drug use,
245 addiction is a chronic illness, and not a crime. The support of pilot SIFs will provide
246 important information about how to best address drug addiction.

247
248 A representative of the Board of Directors recommended referral to the Board of
249 Directors for further study. There was opposition to this request as the AAFP is
250 already behind other medical societies on this issue, so further investigation is not
251 warranted. The American Medical Association has a policy that specifically supports
252 pilot SIFs. With evidence from other countries about the benefits of SIFs, pilot
253 projects are needed to determine their potential benefit in the U.S. The reference
254 committee did not believe that a referral to the Board was needed and
255 recommended to adopt the resolution.

256
257 **RECOMMENDATION:** The reference committee recommends that Resolution No.
258 407 be adopted.

259 **ITEM 5 – SUPPORT MEASURES TO DECREASE MATERNAL MORTALITY IN**
260 **THE UNITED STATES**

261 Resolution No. 408 from the Oregon, New York State, and Texas chapters entitled,
262 “Support Measures to Decrease Maternal Mortality in the United States,” the
263 resolved portions are printed below:

264
265 ~~RESOLVED, That the American Academy of Family Physicians advocate to~~
266 ~~the Accreditation Council for Graduate Medical Education to increase training~~
267 ~~in preconception care, inter-conception care, and complications of maternity~~
268 ~~care, including miscarriage care, and diagnosis of ectopic pregnancy, and be~~
269 ~~it further~~

270
271 ~~RESOLVED, That the American Academy of Family Physicians advocate for~~
272 ~~evidence-based measures known to decrease maternal mortality and~~
273 ~~morbidity such as access to contraception, health insurance coverage for all~~
274 ~~pregnant women, healthy food programs for women in poverty, and~~
275 ~~multidisciplinary interventions such as the California Maternal Quality Care~~
276 ~~Collaborative (CMQCC) hemorrhage toolkit, and be it further~~

277

2018 Report of the Reference Committee on Health of the Public and Science, cont'd

278 ~~RESOLVED, That the American Academy of Family Physicians (AAFP)~~
279 ~~develop or collaborate on a curriculum in implicit bias and reproductive justice~~
280 ~~principles for presentation at state and national AAFP CME conferences to~~
281 ~~combat discrimination and bias from health care providers, and be it further~~

282
283 ~~RESOLVED, That the American Academy of Family Physicians support~~
284 ~~maternal mortality review committees and advocate for state and federal~~
285 ~~legislative and fiscal support for their establishment and maintenance, and be~~
286 ~~it further~~

287
288 ~~RESOLVED, That the American Academy of Family Physicians support and~~
289 ~~advocate for legislative initiatives to fund research to further understand both~~
290 ~~the high rate in the U.S. and the disparities in maternal mortality rates.~~

291
292 RESOLVED, That the American Academy of Family Physicians supports
293 state and federal level review of maternal morbidity and mortality, and be it
294 further

295
296 RESOLVED, That the American Academy of Family Physicians develop a
297 task force to report back to the 2019 AAFP CoD, including but not limited to
298 the following:

- 299
- 300 • Evidence-based methods to decrease maternal morbidity and mortality
 - 301 • Methods to increase recognition of implicit bias and reduce disparities
in maternal morbidity and mortality
 - 302 • Strategies to improve resident education and support practicing family
303 physicians in providing full scope reproductive and maternity care.

304 **ADOPTED AS AMENDED**

305
306 There was significant testimony in support of the resolution and no testimony in
307 opposition. Many of those testifying pointed out the increasing rates of maternal
308 morbidity and mortality in the U.S. as well as the significant racial and geographic
309 disparities. The lack of access to maternity care in rural communities is a growing
310 problem, while fewer graduating family physicians are choosing to provide
311 obstetrical care in practice. In order to reverse this trend, family medicine residents
312 must receive adequate training.

313
314 The AAFP is currently working with the American College of Obstetricians and
315 Gynecologists (ACOG), the Council on Patient Safety, and the March of Dimes to

2018 Report of the Reference Committee on Health of the Public and Science, cont'd

316 reduce maternal mortality. There are several bills being introduced to Congress that
317 are being reviewed by the AAFP for potential advocacy. The reference committee
318 felt that there were some important gaps in the AAFP's work, particularly in relation
319 to the ACGME's support of appropriate training.

320
321 **RECOMMENDATION:** The reference committee recommends that Resolution No.
322 408 be referred to the Board of Directors.

323 324 **ITEM 6 –NATIONAL IMMUNIZATION REGISTRY**

325
326 Resolution No. 410 from the South Carolina chapter entitled, "National
327 Immunization Registry," the resolved portions are printed below:

328
329 RESOLVED, That the American Academy of Family Physicians advocate for
330 a national immunization registry for children and adults that is web-based
331 accessible, and be it further **ADOPTED**

332
333 RESOLVED, That the American Academy of Family Physicians request the
334 U.S. Department of Health and Human Services to monitor a national
335 immunization registry for children and adults that is web-based to assure
336 compliance among all who offer immunizations to patients. **REFERRED TO**
337 **BOARD OF DIRECTORS**

338
339 All testimony was in support of the spirit of the resolution and the need for an
340 immunization registry that crosses state lines and is used by all who administer
341 immunizations. There was concern expressed about the potential administrative
342 burden on physicians and their staff, as well as, questions about who should monitor
343 the registry and how it would be funded. The reference committee agreed that this
344 is an important issue but recognized that the AAFP is currently involved in work to
345 increase interoperability of state registries. The committee did not feel it would be
346 effective to derail these efforts and adopt a new and complex stance for a single
347 national registry.

348
349 **RECOMMENDATION:** The reference committee recommends that Resolution No.
350 410 not be adopted.

351

ITEM 7 – FDA AND LOW-NICOTINE PRODUCTS

Resolution No. 411 from the Illinois chapter entitled, “FDA and Low-Nicotine Products,” the resolved portion is printed below:

RESOLVED, That the American Academy of Family Physicians (AAFP) revoke its support of the Food and Drug Administration standard of low-nicotine to minimally or non-addictive levels, while the AAFP reviews more studies on the effects of low-nicotine on the health of teens and adults, and be it further

RESOLVED, That the American Academy of Family Physicians oppose the efforts of the Food and Drug Administration to work with the tobacco industry to approve low nicotine products, and be it further

RESOLVED, That the American Academy of Family Physicians provide to the 2019 Congress of Delegates a report on the investigation of its review of studies into the effects of low-nicotine on the health of teens and adults.

REFERRED TO BOARD OF DIRECTORS

There was testimony both for and against the resolution. Those testifying in support of the resolution pointed out that there is no safe level of nicotine, and the AAFP should not profess support for any nicotine product. They stated that the AAFP’s support of the FDA on low-nicotine products does not align with current AAFP policy and undermines members’ local advocacy efforts. There was concern that the AAFP prematurely supported low-nicotine products without sufficient evidence that they truly reduce harm.

Several members opposed the resolution. While they agreed that more evidence was needed, there was support for the harm reduction strategy. It was pointed out that data suggest that, in current smokers, very low nicotine content cigarettes decrease nicotine exposure and cigarette dependence, reduce the number of cigarettes smoked per day and increase the likelihood of making and succeeding at a quit attempt. Concern was expressed about opposing the FDA when they are moving in the right direction.

388 The reference committee reviewed the testimony and current AAFP policy and
389 determined that they agreed with the spirit of the resolution but would like to provide
390 the Board of Directors the opportunity to study the issue further.

391
392 **RECOMMENDATION:** The reference committee recommends that Resolution No.
393 411 be referred to the Board of Directors.

394
395 **ITEM 8 – NON-PHARMACOLOGIC INTERVENTIONS, PAIN, AND OPIOIDS**

396
397 Resolution No. 412 from the New Hampshire, Maine, and Mississippi Chapters
398 entitled, “Non-Pharmacologic Interventions, Pain, and Opioids,” the resolved
399 portion is printed below:

400
401 RESOLVED, That the AAFP explore additional avenues beyond its current
402 policy and practices that encourage and facilitate the incorporation of
403 acupuncture and spinal manipulation by family physicians to treat pain and
404 reduce opioid use.

405 There was limited testimony. Those testifying in support stated that the AAFP was
406 not adequately preparing members to treat low back pain. While the sponsors of the
407 resolution called out acupuncture and spinal manipulation as first line treatment, it
408 was pointed out that there are other non-pharmacologic treatments with evidence
409 of benefit, such as cognitive behavioral therapy. There was also testimony
410 highlighting that the AAFP has endorsed the American College of Physicians
411 guideline for the non-invasive treatment of low back pain. This guideline
412 recommends non-pharmacologic treatment, including acupuncture and
413 manipulation, as initial treatment. However, the sponsors of the resolution felt that
414 family physicians needed more support and resources. The reference committee
415 discussed the intent of the resolution and determined further education on non-
416 pharmacologic treatment to family physicians would be beneficial and would align
417 with current initiatives.

418
419 **RECOMMENDATION:** The reference committee recommends that Substitute
420 Resolution No. 412, which reads as follows, be adopted in lieu of Resolution No.
421 412:

422

423 RESOLVED, That the American Academy of Family Physicians provide
424 education to assist its members in the use of evidence-based non-
425 pharmacologic interventions for the treatment of pain.

426
427 **ITEM 9 – TWO PERCENT TAX ON GUN AND GUN AMMUNITION SALES TO**
428 **FUND MENTAL HEALTH SUPPORT SERVICES AND EDUCATION AT PUBLIC**
429 **SCHOOLS**

430
431 Resolution No. 413 from the California chapter entitled, “Two Percent Tax on Gun
432 Ammunition Sales to Fund Mental Health Support Services and Education at Public
433 Schools,” the resolved portion is printed below:

434
435 RESOLVED: That the American Academy of Family Physicians encourage
436 lawmakers to add a two per cent tax on gun and gun ammunition sales to fund
437 mental health support services and education at public schools to:

- 438 • Increase the availability of behavioral health therapists at schools;
- 439 • Develop strategies for educators and administrators to identify at risk
440 children;
- 441 • Provide parenting support services and parenting classes;
- 442 • Provide post-incident support services for students affected by any gun
443 violence; and
- 444 • Develop curriculum for life skills and stress management including
445 conflict resolution, mindful meditation, and anger management that
446 would be offered to all students.

447 **EXTRACTED - NOT ADOPTED**

448 The reference committee heard mixed testimony in support and against the
449 resolution. Those testifying in support of the resolution emphasized the increase in
450 number of school shootings and suicides, in addition to the challenges in providing
451 appropriate mental health resources at schools. Members also highlighted the need
452 to increase access to mental health care to help address the public health issue of
453 gun violence. Those who testified against the resolution cited concerns with
454 additional taxes and the ambiguity of how the funds would be obtained and
455 distributed. The reference committee agreed with the concerns surrounding the

456 implementation of the resolution; particularly in how to ensure the funds are used
457 for mental health counseling in schools instead of being collected in a general
458 discretionary fund. While the committee was supportive of the spirit of the resolution,
459 they felt there needed to be more clarity in order to move forward. Therefore, the
460 committee recommended that the resolution not be adopted.

461

462 **RECOMMENDATION:** The reference committee recommends that Resolution No.

463 413 not be adopted.

464

465 **ITEM 10 – PREVENTING GUN VIOLENCE**

466

467 Resolution No. 414 from the Minnesota chapter entitled, “Preventing Gun Violence,”
468 the resolved portion is printed below:

469

470 RESOLVED, That the American Academy of Family Physicians work to
471 champion the federal re-authorization of research on the causes and impact
472 of gun violence on the health and well-being of children and adults in this
473 country.

474

475 The reference committee heard testimony in support of the resolution asking the
476 AAFP to advocate for more research into the impact of gun violence on the health
477 of children and adults. Those who testified acknowledged that the resolution was
478 submitted prior to the release of the AAFP position paper, “Prevention of Gun
479 Violence”. The reference committee reviewed the testimony and the referenced
480 position paper. Committee members agreed that the resolved clause is addressed
481 within the position paper, which calls on the U.S. Congress to fund research on the
482 health impact of gun violence. Therefore, the committee recommended the
483 resolution be reaffirmed.

484

485 **RECOMMENDATION:** The reference committee recommends that Resolution No.

486 414 be reaffirmed as current policy.

487

488 **ITEM 11 – REDUCING GUN VIOLENCE**

489

2018 Report of the Reference Committee on Health of the Public and Science, cont'd

490 Resolution No. 415 from the Oregon and Wisconsin chapters entitled, “Reducing
491 Gun Violence,” the resolved portion is printed below:

492
493 RESOLVED, That the American Academy of Family Physicians support
494 sensible restrictions on gun ownership at a state level, support enforcement of
495 existing gun laws, and support state laws that would protect children from
496 dangerous or unsupervised gun use.

497
498 The reference committee heard mixed testimony for and against the resolution
499 asking that the AAFP support sensible restrictions on gun ownership. Those who
500 testified in support of the resolution cited current statistics related to gun violence
501 and the need to protect the health and well-being of patients, particularly children.
502 Those who testified against the resolution noted concerns around the interpretation
503 of sensible restrictions and the potential implementation issues at the state level.
504 The committee discussed current AAFP policy and determined that the resolution
505 is already being addressed by the AAFP position paper, “Prevention of Gun
506 Violence” and the policy “Firearms and Safety”. Therefore, the committee
507 recommended reaffirming the resolution.

508
509 **RECOMMENDATION:** The reference committee recommends that Resolution No.
510 415 be reaffirmed as current policy.

511
512 **ITEM 12 – PRE-EXPOSURE PROPHYLAXIS (PrEP) RELATED LIFE AND**
513 **DISABILITY INSURANCE DENIALS**

514
515 Resolution No. 417 from the Indiana chapter entitled, “Pre-exposure Prophylaxis
516 (PrEP) Related Life and Disability Insurance Denials,” the resolved portion is printed
517 below:

518
519 RESOLVED, That the American Academy of Family Physicians work with its
520 partners to develop and implement a strategy to advocate for ending insurers’
521 practice of denying life and disability insurance to HIV-negative patients who
522 choose to protect themselves with pre-exposure prophylaxis (PrEP).

523

524 The reference committee heard unanimous testimony in support of the resolution
525 asking the AAFP to advocate against the denial of life and disability insurance for
526 patients who are HIV-negative and taking pre-exposure prophylaxis (PrEP). The
527 reference committee agreed with the spirit of the resolution but had concerns with
528 the prescriptive nature of the resolved clause. Therefore, the reference committee
529 recommended adopting a substitute resolved clause asking for general advocacy
530 against the practice of denying coverage for patients taking PrEP.

531

532 **RECOMMENDATION:** The reference committee recommends that Substitute
533 Resolution No. 417, which reads as follows, be adopted in lieu of Resolution No.
534 417:

535

536 RESOLVED, that the American Academy of Family Physicians advocate for
537 ending insurers' practice of denying life and disability insurance to HIV-
538 negative patients who choose to protect themselves with pre-exposure
539 prophylaxis (PrEP).

540

541 **ITEM 13– ELIMINATION OF KNOWN AND PROBABLE CARCINOGENS FROM**
542 **SCHOOL MEALS**

543

544 Resolution No. 419 from the New Jersey chapter entitled, “Elimination of Known
545 and Probable Carcinogens from School Meals,” the resolved portions are printed
546 below:

547

548 RESOLVED, That the American Academy of Family Physicians adopt a policy
549 in support of the elimination of cured and/or processed meats from school
550 cafeterias, and be it further

551

552 RESOLVED, That the American Academy of Family Physicians convey its
553 support of the elimination of cured and/or processed meats from school
554 cafeterias to the American Academy of Pediatrics for consideration of a similar
555 policy

556

2018 Report of the Reference Committee on Health of the Public and Science, cont'd

557 The reference committee heard mixed testimony in support and against the
558 resolution. Testimony in support of the resolution highlighted reports from the World
559 Health Organization and the proposed link of cured and/or processed meats and
560 colorectal cancer. Those who testified against the resolution cited concerns over
561 the potential for increased food waste, the fiscal impact and administrative burden
562 on schools, and the fact that the increased risk of colorectal cancer associated with
563 processed meat was small. In the context of the larger concerns over obesity in
564 children due to processed carbohydrates and sugar, members were opposed to the
565 elimination of protein sources from school lunches. The reference committee
566 reviewed the priorities of the AAFP and agreed to recommend that the resolution
567 not be adopted.

568

569 **RECOMMENDATION:** The reference committee recommends that Resolution No.
570 419 not be adopted.

571 **ITEM 14– NATURAL DISASTER CONTINGENCY PLAN**

572

573 Resolution No. 420 from the Puerto Rico chapter entitled, “Natural Disaster
574 Contingency Plan,” the resolved portion is printed below:

575

576 RESOLVED, That the American Academy of Family Physicians (AAFP) help
577 create a natural disaster contingency plan that involves the logistics of the
578 continuation of primary care services during, before, and after a natural
579 disaster in consortium with each AAFP chapter.

580

581 The reference committee heard testimony in support of the resolution asking that
582 the AAFP provide resources for the continuation of primary care services in states
583 affected by natural disasters. Those testifying in support of the resolution highlighted
584 the complicated nature of coordinating aid to the affected areas and the need for
585 long term planning and contingencies. There was uncertainty raised regarding the
586 best way for AAFP to provide these services. Testimony on current AAFP resources
587 was also provided given that this resolution was introduced late and background
588 was not provided.

589

590 The reference committee reviewed the updated AAFP emergency disaster
591 preparedness materials that include resources for personal, practice, and
592 community plans. The committee agreed with the spirit of the resolution, but were
593 uncertain regarding the exact ask of the resolved clause and how the AAFP could

594 best work with national agencies in a large-scale effort. Therefore, the committee
595 agreed to refer the resolution to the Board of Directors to investigate options and
596 resources for working with the AAFP Foundation, state and federal agencies, and
597 other partners.

598

599 **RECOMMENDATION:** The reference committee recommends that Resolution No.
600 420 be referred to the Board of Directors.

601

602

603

604

605

606

607 **ITEM 15 – POLICY STATEMENT ON ADOLESCENT HEALTH CARE,**
608 **CONFIDENTIALTY**

609

610 **RECOMMENDATION:** The reference committee recommends that Board Report H
611 on Policy Statement Review, regarding revised policy statement on “Adolescent
612 Health Care, Confidentiality,” ONLY para. 20, pp. 242-243 be adopted.

613

614 **ITEM 16 – POLICY STATEMENT ON ATHLETIC PERFORMANCE ENHANCING**
615 **DRUGS**

616

617 **RECOMMENDATION:** The reference committee recommends that Board Report H
618 on Policy Statement Review, regarding revised policy statement on “Athletic
619 Performance Enhancing Drugs,” ONLY para. 21, pp. 243-244 be adopted.

620

621 **ITEM 17 – POLICY STATEMENT ON BACKPACK SAFETY IN CHILDREN**

622

623 **RECOMMENDATION:** The reference committee recommends that Board Report H
624 on Policy Statement Review, regarding revised policy statement on “Backpack
625 Safety in Children,” ONLY para. 22, p. 244 be adopted.

626

627 **ITEM 18 – POLICY STATEMENT ON CHELATION THERAPY**

628

629 **RECOMMENDATION:** The reference committee recommends that Board Report H
630 on Policy Statement Review, regarding revised policy statement on “Chelation
631 therapy,” ONLY para. 23, p. 244 be adopted.

632

633 **ITEM 19 – POLICY STATEMENT ON CLIMATE CHANGE AND AIR POLLUTION**

634

635 **RECOMMENDATION:** The reference committee recommends that Board Report H
636 on Policy Statement Review, regarding revised policy statement on “Climate
637 Change and Air Pollution” to “Environmental Health and Climate Change,” ONLY
638 para. 24, pp. 244-245 be adopted.

639

640 **ITEM 20 – POLICY STATEMENT ON CLINICAL PRACTICE GUIDELINES**

641

642 **RECOMMENDATION:** The reference committee recommends that Board Report H
643 on Policy Statement Review, regarding combined and revised policy statements on
644 “Joint Development of Clinical Practice Guidelines with Other Organizations” and
645 “Clinical Practice Guidelines,” ONLY para. 25, pp. 245-246 be adopted.

646

647 **ITEM 21 – POLICY STATEMENT ON CULTURALLY PROFICIENT HEALTH**
648 **CARE**

649

650 **RECOMMENDATION:** The reference committee recommends that Board Report H
651 on Policy Statement Review, regarding revised policy statement on “Culturally
652 Proficient Health Care,” ONLY para. 26, pp. 246-247 be adopted.

653

654 **ITEM 22 – POLICY STATEMENT ON DISCIPLINE IN SCHOOLS**

655
656 **RECOMMENDATION:** The reference committee recommends that Board Report H
657 on Policy Statement Review, regarding a new policy statement on “Discipline in
658 Schools,” ONLY para. 28, p. 247 be adopted.

659
660 **ITEM 23 – POLICY STATEMENT ON DON’T TEST AND DRIVE INITIATIVE**

661
662 **RECOMMENDATION:** The reference committee recommends that Board Report H
663 on Policy Statement Review, regarding revised policy statement on “Don’t Text and
664 Drive Initiative” to “Distracted Driving”,” ONLY para. 29, pp. 247-248 be adopted.

665 **ITEM 24 – POLICY STATEMENT ON DRUG TESTING AND SELECTION**

666
667 **RECOMMENDATION:** The reference committee recommends that Board Report H
668 on Policy Statement Review, regarding revised policy statement on “Drug Testing
669 and Selection” to “Medication, Device, and Biologic Agents Drug Testing and
670 Selection,” ONLY para. 30, p. 248 be adopted.

671
672 **ITEM 25 – POLICY STATEMENT ON GENITAL SURGERIES IN INTERSEX**
673 **CHILDREN**

674
675 **RECOMMENDATION:** The reference committee recommends that Board Report H
676 on Policy Statement Review, regarding a new policy statement on “Genital
677 Surgeries in Intersex Children,” ONLY para. 32, pp. 248-249 be adopted.

678
679 **ITEM 26 – POLICY STATEMENT ON HEARING LOSS, DEAFNESS AND THE**
680 **HARD OF HEARING**

681

682 **RECOMMENDATION:** The reference committee recommends that Board Report H
683 on Policy Statement Review, regarding revised policy statement on “Hearing Loss,
684 Deafness, and the Hard of Hearing,” ONLY para. 33, p. 249 be adopted.

685

686 **ITEM 27 – POLICY STATEMENT ON HOMELESSNESS**

687

688 **RECOMMENDATION:** The reference committee recommends that Board Report H
689 on Policy Statement Review, regarding revised policy statement on
690 “Homelessness,” ONLY para. 34, p. 250 be adopted.

691

692

693

694

695 **ITEM 28 – POLICY STATEMENT ON IMPLICIT BIAS**

696

697 **RECOMMENDATION:** The reference committee recommends that Board Report H
698 on Policy Statement Review, regarding a new policy statement on “Implicit Bias,”
699 ONLY para. 36, p. 251 be adopted.

700

701 **ITEM 29 – POLICY STATEMENT ON LINGUISTICALLY APPROPRIATE**
702 **HEALTH CARE**

703

704 **RECOMMENDATION:** The reference committee recommends that Board Report H
705 on Policy Statement Review, regarding revised policy statement on “Linguistically
706 Appropriate Health Care,” ONLY para. 37, p. 251 be adopted.

707

708 **ITEM 30 – POLICY STATEMENT ON MAXIMIZING REPRESENTATION OF**
709 **RACIAL AND ETHNIC SUBPOPULATION IN DATA**

710

711 **RECOMMENDATION:** The reference committee recommends that Board Report H
712 on Policy Statement Review, regarding a new policy statement on “Maximizing
713 Representation of Racial and Ethnic Subpopulations in Data,” ONLY para. 39, pp.
714 251-252 be adopted.

715

716 **ITEM 31 – POSITION PAPER ON MENTAL HEALTH CARE SERVICES BY**
717 **FAMILY PHYSICIANS**

718

719 **RECOMMENDATION:** The reference committee recommends that Board Report H
720 on Policy Statement Review, regarding revision of the position paper on “Mental
721 Health Care Services by Family Physicians,” ONLY para. 40, p. 252 and Appendix
722 B, pp. 288-295 be adopted.

723

724 **ITEM 32 – POLICY STATEMENT ON ORAL HEALTH**

725

726 **RECOMMENDATION:** The reference committee recommends that Board Report H
727 on Policy Statement Review, regarding a new policy statement on “Oral Health,”
728 ONLY para. 42, pp. 252-253 be adopted.

729

730 **ITEM 33 – POLICY STATEMENT ON PAID SICK LEAVE**

731

732 **RECOMMENDATION:** The reference committee recommends that Board Report H
733 on Policy Statement Review, regarding a new policy statement on “Paid Sick
734 Leave,” ONLY para. 44, p. 253 be adopted.

735

736 **ITEM 34 – POLICY STATEMENT ON PHYSICAL ACTIVITY IN CHILDREN**

737

738 **RECOMMENDATION:** The reference committee recommends that Board Report H
739 on Policy Statement Review, regarding revised policy statement on “Physical
740 Activity in Children,” ONLY para. 45, pp. 253-254 be adopted.

741

742 **ITEM 35 – POSITION PAPER ON PREVENTION OF GUN VIOLENCE**

743

744 **RECOMMENDATION:** The reference committee recommends that Board Report H
745 on Policy Statement Review, regarding a new position paper on “Prevention of Gun
746 Violence,” ONLY para. 48, p. 254 and Appendix C, pp. 296-305 be adopted.

747

748 **ITEM 36 – POLICY STATEMENT ON SCREENING**

749

750 **RECOMMENDATION:** The reference committee recommends that Board Report H
751 on Policy Statement Review, regarding combined and revised policy statements on
752 “Unsupported Screening and Diagnosis Testing” and “Screening,” ONLY para. 49,
753 pp. 254-255 be adopted.

754

755 **ITEM 37 – POLICY STATEMENT ON SEPARATION OF FAMILIES**

756

757 **RECOMMENDATION:** The reference committee recommends that Board Report H
758 on Policy Statement Review, regarding a new policy statement on “Separation of
759 Families,” ONLY para. 51, p. 255 be adopted.

760

761 **ITEM 38 – POLICY STATEMENT ON SOLITARY CONFINEMENT OF YOUTH**

762

763 **RECOMMENDATION:** The reference committee recommends that Board Report H
764 on Policy Statement Review, regarding a new policy statement on “Solitary
765 Confinement of Youth,” ONLY para. 53, p. 256 be adopted.

766

767 **INFORMATIONAL ITEMS**

768

769 **RECOMMENDATION:** The reference committee recommends that the following
770 informational items be filed for reference.

771

- 772 • Board Report H, AAFP Policy Statement Review, ONLY, paras. 27, 31, 35,
773 38, 41, 43, 46, 47, 50, and 52 (p. 233-338).

2018 Report of the Reference Committee on Health of the Public and Science, cont'd

774 Mr. Speaker, I wish to thank those who appeared before our reference committee
775 to give testimony and the committee members for their invaluable assistance and
776 to commend the headquarters staff for their help in the preparation of this report.
